## 📸 Screenshots of the Project

Below are the key screenshots of my Django-based Social Media App project.

1. Home Page

## 2. User Signup and Login Page

The image displays two screenshots of web browsers, each showing a dark-themed login or sign-up form.

**Top Screenshot (Sign Up Page):**

- Title:** Sign Up | NeonSocial
- URL:** 127.0.0.1:8000/signup/
- Form Title:** Create Your Account
- Fields:**
  - Username: (Input field)
  - Email: (Input field)
  - Password: (Input field)
  - Password confirmation: (Input field)
- Text:** Required. 150 characters or fewer. Letters, digits and @/./+/-/\_ only.
- Buttons:**
  - Sign Up (Blue button)
  - Already have an account? [Log in](#)

**Bottom Screenshot (Login Page):**

- Title:** Login | FlashFeed
- URL:** 127.0.0.1:8000/login/
- Form Title:** Welcome Back
- Fields:**
  - Username: (Input field)
  - Password: (Input field)
- Buttons:**
  - Login (Pink button)
  - Don't have an account? [Sign up](#)

### 3. Profile Page

The screenshot shows a web browser window with the URL `127.0.0.1:8000/profile/k/`. The page is titled "k's Profile" and is part of the "FlashFeed" platform. The interface is dark-themed.

**User Interface Elements:**

- Header:** "FlashFeed" logo, "Profile" link, and "Logout" button.
- Profile Section:** A circular profile picture of a fairy holding a rose, enclosed in a glowing pink circle. Below it is a large, bold lowercase "k".
- Bio Placeholder:** The text "trying to improve" in a light font.
- Action Button:** A blue-outlined "Edit Profile" button.
- Post Section:** Titled "k's Posts". It contains two recent posts in a card format.
- Post 1:** Includes a small rocket icon, the text "Turning ideas into impact—because the future won't invent itself. #InnovationInMotion #TechForGood #NextGenCreators", and the timestamp "June 25, 2025, 8:48 a.m."
- Post 2:** Includes the text "hey guys!!" and the timestamp "June 23, 2025, 6:50 a.m."

4. Create New Post Page (with image and caption)

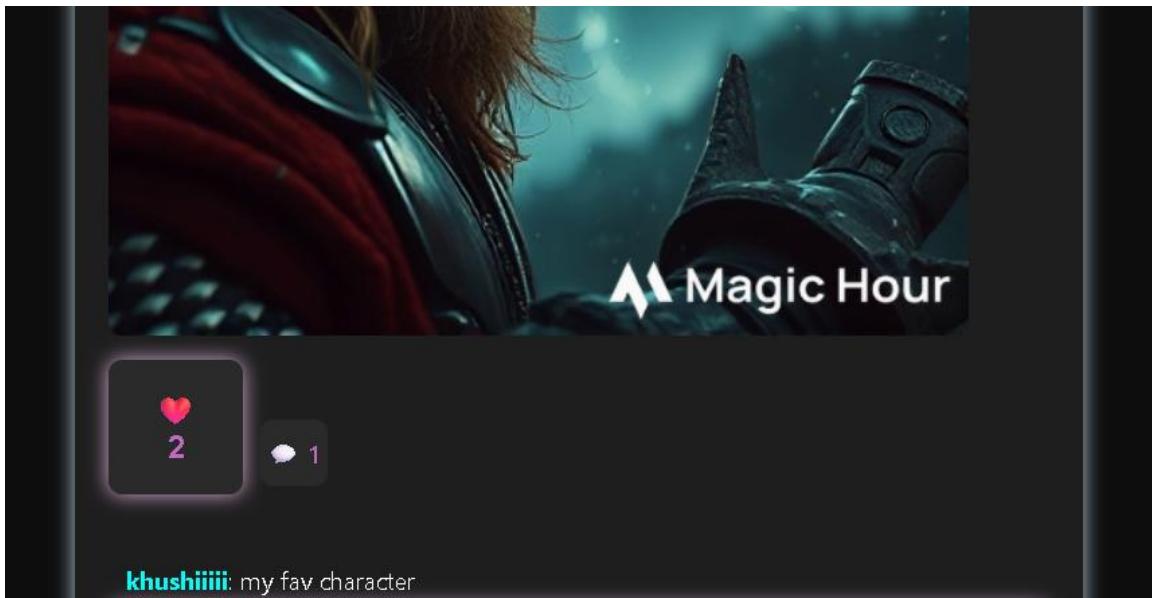

Screenshot of a web browser displaying a social media application named "NeonSocial - Feed". The URL in the address bar is "127.0.0.1:8000/feed/". The page title is "FlashFeed". The main content area displays a "Welcome, k!" message and a post from user "khushiiiii".

The post details:

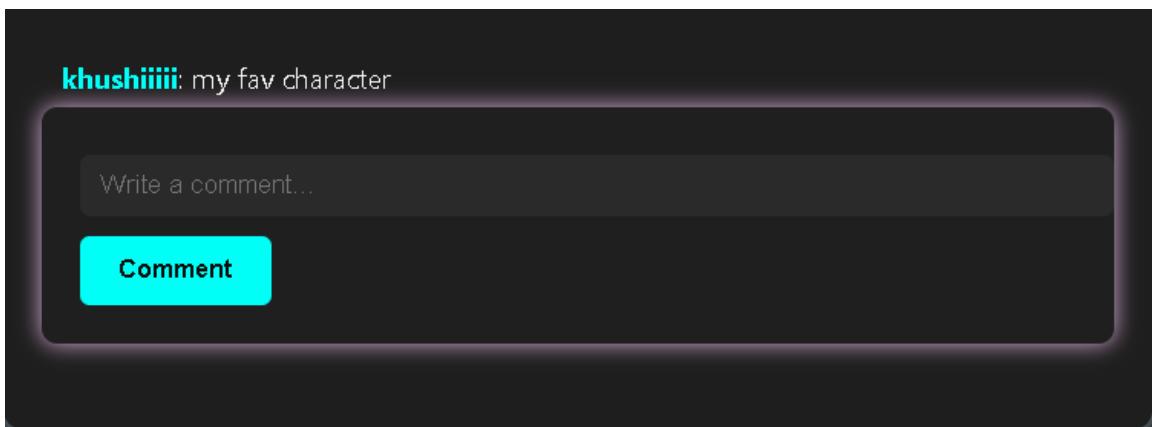

- Content:** What's on your mind?
- Image:** Choose File No file chosen
- Post Button:** Post

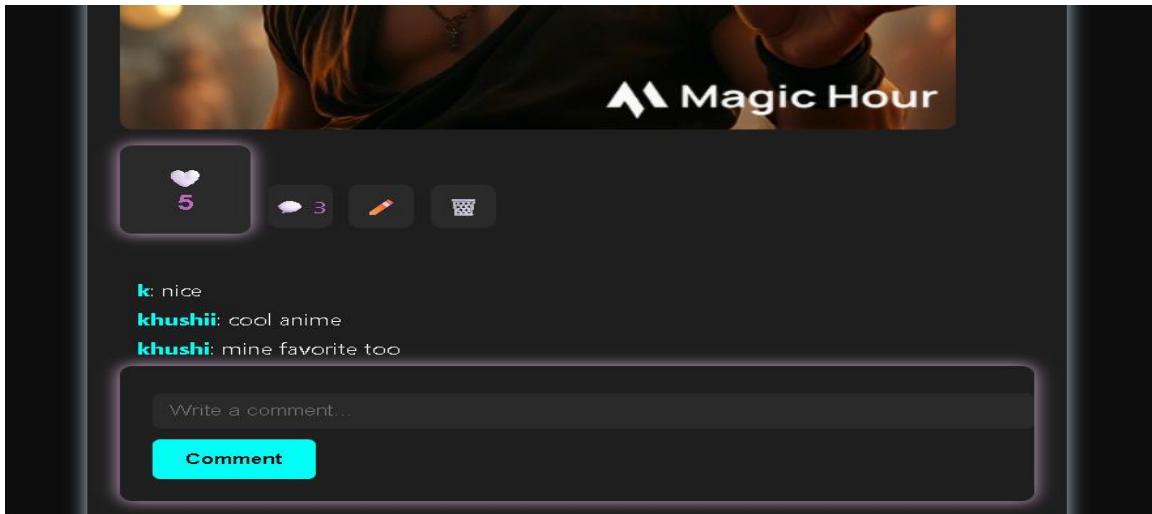

The post itself is by user "khushiiiii" with the caption "Thor #Avengers" and timestamp "June 25, 2025, 11:18 a.m.". It includes a thumbnail image showing a close-up of a person's hair and ear.

5. Like and Unlike Feature (on each post)

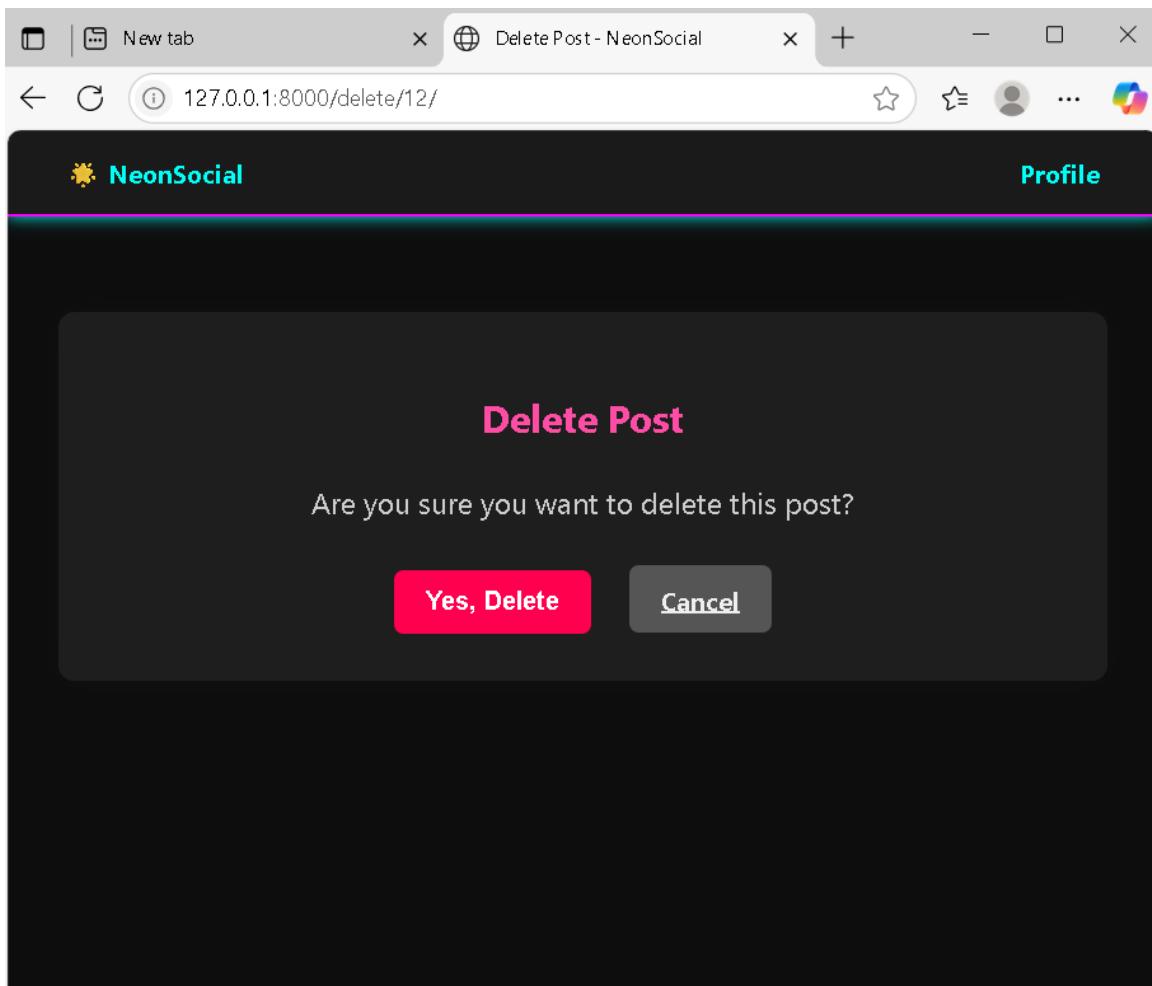

6. Comment Section (adding/viewing comments under a post)

## 7. Delete post

---

This report contains visual proof of all working modules of my Django social media project.
